# SIRIUS™

# BATTERY OPERATED SMOKE DETECTOR

## Features

Wireless Standalone detectors combines proven design with performance and has unique features that benefit the installer and end user. MICRO SENSORS LLP Battery Operated Detector works using the light scatterprinciple and is ideal for applications where slow burning or shouldering fires are likely. The Detector continuously monitors the environment for contamination of clean air by smoke particles.This facilitates early warning of incipient fires.

## Specifications

- Power Source : 9V Battery
- Sound intensity : 80dB
- Temperature Range : -10°c to +55c°
- Humidity Range (RH) : 5%-90% relative humidity
- Sensor : Photoelectric
- Size : 105mm in diameter x 59mm
- Weight : 150gm
- Interconnects : No
- LED : Red & Green.

## Features

- Plug and play – Do it yourself- No Need for any installation support.
- Cable and wire free- No more headaches of following up electricians or installers
- Inbuilt alarm buzzer- Notifies the occupant of any Fire emergency situation- Helps in evacuating the homes or office buildings
